

# HANDS ON!

## Set Up a Taste Test

Are your family members as wise as King Solomon, or as observant as the bee? Set up a taste test of sweet and sticky items you have in your kitchen cupboards, and see if you and your family can figure out which one is which by using your senses, the way a bee would.

Gather together a few different sweet-tasting things — maple syrup, chocolate sauce, and of course, honey. Pour a little of each into different cups.

Family members can put on blindfolds and dip spoons (use a clean one every time!) into each cup. Can't tell what's what the first time around? Do it again — and this time, like the little bee in our story, pay attention to all the tiny details of each taste. See how you'd rate against the Queen of Sheba!
